

UHF Mount On Metal Tag

IDT FERRIC™ 100

The IDT Ferric 100 is one of the largest RFID tags in the Ferric series, measuring 100mm x 28mm x 7mm. Despite its size, this tag offers a long read range of up to 12 meters, depending on the specific setup and environment. Like other Ferric series tags, the Ferric 100 is designed to be versatile and easy to mount. It can be attached using adhesive, magnetic, or screw options, depending on the specific requirements of the application. The Ferric 100 tag is well-suited for a variety of tracking and management applications, particularly in industrial settings. Its large size and long read range make it ideal for tracking large items, such as vehicles or heavy equipment, and it can help improve efficiency and accuracy in a variety of tracking and management tasks.
